

## KURSVÄRDERING

**KURS:** SVEE12/EXTA25

**HT20**

14 studenter har svarat på enkäten.

### **Är du nöjd med kursen? (Are you satisfied with the course?)**

14 studenter har svarat "Ja" på frågan.

Här kommer studenternas svar:

- Very good, access to material. Good online resources. Nice atmosphere in the class. I have learned a lot.
- Yes, I am satisfied. I am glad that I managed to finish the course in spite of covid.
- I like the method of teaching (talking to people).
- The exercises were good sometimes it was a bit too slow.
- I love to learn Swedish culture and language.
- I think I improved my Swedish a lot in this short time. Ermira is a great teacher.
- Maybe we could talk a bit more time on important grammatical points but overall, I am satisfied about the course.
- Yes, by the end of the course I could see myself improve, especially when reading texts and hearing spoken Swedish.
- I could follow the course better since I already had a more level.
- Because the course gave us the basics and I have the impression that I can express myself with basic sentences in Swedish.
- I learned a lot, the structure was really good, good Power-points and explanations of grammar, excellent teacher.
- I have got really better in the language.
- Yes, I am because we have got a lot of information's on Canvas.

### **Motsvarade kursen dina förväntningar? (Has the course corresponded your expectations?)**

14 studenter har svarat "Ja" på frågan.

- Moves at a relatively fast pace but not so fast that you get left behind.
- I like the textbooks. They are good and give good instructions and a lot of repeat and good overview.
- Yes, Swedish is getting better. Understanding speaking.
- We talk about Swedish habits and culture, it is interesting.
- I knew what to expect since I was in SVEE11EXTA24.
- We continued what we started in level 1 and we keep improving our Swedish.
- I got better skills now.

- Because the teacher was pedagogical but, I think that we should do more oral comprehension.
- I had fun learning a little bit of the language.
- I speak Swedish really better now.
- Yes, it has. I feel a bit more comfortable in Swedish than after the level 1.

**Vad tycker du om kursmaterialet? (textboken/övningsboken/lärarens material/Rivstart på internet/Materialet och upplägget i Canvas)**

- The teacher handouts/exercises sheets are very useful. The textbook is good. Although it would be nice to have more set exercises to do throughout the week.
- I like the books and I was really happy with the teacher as well. And happy that I was allowed to continue from home and got send extra material. Thank you for that.
- They fit together quite well! Enough material!
- The material was very good. The vocabulary list wasn't so good as it was hard to find words.
- There are so much things to work on in there but there are great.
- I like it, especially, the videos online are helpful.
- The course material is good.
- The textbook along with the recorded files on Rivstart was really useful. As well as the teaching material on the Canvas website. But I didn't use the exercise book.
- The online material was really good also the videos. I didn't like that the last videos were only in Swedish, it's really hard when they explain you something new only in Swedish. I also like all the teacher's material to work more in the grammar and reading comprehension.
- Textboken och övningsboken är mycket bra. Lärarens material också. Rivstart på internet är bra.
- The material was efficient after I don't like the fact that half of the course is online. And when the lessons are in Swedish (for the videos) it's quite hard to understand.
- A little bit expensive but good structure, good exercises, extramaterial was great, grammar videos that were on English also really good. Videos on Swedish not that good like the others (because more difficult to understand).
- Helps a lot.
- It's really good to have all those information's in Canvas.

**Vad tycker du om fördelningen av arbetsformer (distribution of working methods) på kursen? (individuellt arbete, grupparbete, grammatikgenomgångar, läxor)**

- I like the mix of work methods, but it would be nice if we did more speaking exercises. I like the small group discussions.
- Good. The same as last time. Happy with a lot of group work and that helps with having a lot of conversations.
- Good, previous page!

- Distribution was good.
- It is hard to work on our own when we have a lot of work in other courses.
- I like that we do a lot of talking and discussions.
- I think it is very good to have oral conversations during the course it helps a lot to learn the vocabulary and the grammatical rules.
- The methods are well varied, fun and we can learn different things from the different methods.
- Maybe a bit too much group work. Grammatikgenomgångar är okej. Grammatik är viktig. Maybe a bit of discussion with the teacher about certain topics would be interesting and some additional materials like videos and listening. We don't listen that much in class.
- I think that the individual part is maybe a little bit too heavy.
- Good, Thank you for commenting on the texts every week.
- I like the fact that the lessons are combined with some group discussions.

**Övriga kommentarer (till exempel: salar, stämningen i gruppen, lärarens arbete, upplägget av kursen, materialet i Canvas, schema, tentamensform (examination forms))**

- The exams are well laid out and easy to understand. The atmosphere is very friendly. It would be nice if the course wasn't taught so late.
- Good! Nice place and space for exchange student to get to know other people. And good atmosphere. And nice to know a little Swedish on the way. Thank you for good two courses.
- Good, good amount of people in the room.
- Everything was good 😊
- I think the class on Mondays are too long. I would prefer two meetings a week.
- The course was really fun and enjoyable.
- I like the teacher and the atmosphere she creates in class. That nothing is wrong.
- Stämningen och professor är trevlig och intressant. Tentamensform är okej också.
- Everything was good. The teacher is really nice.
- Atmosphere was good, nice teacher; gave room for all questions. Maybe the course would be a little bit earlier in the day. (might be difficult to create a time schedule but had to concentrate 3 and a half hours in the evening).
- Teacher is really nice, thank you!
